## Profile

As a front-end web developer focused on ReactJS, I specialize in building dynamic and responsive web applications. I enjoy creating user-friendly interfaces that enhance the overall experience. I am passionate about using technology to develop innovative solutions that make a real impact.

## Skills

HTML 5	<div><div></div><div></div><div></div><div></div><div></div></div>	CSS 3	<div><div></div><div></div><div></div><div></div><div></div></div>
JavaScript	<div><div></div><div></div><div></div><div></div><div></div></div>	React JS	<div><div></div><div></div><div></div><div></div><div></div></div>
Tailwind CSS	<div><div></div><div></div><div></div><div></div><div></div></div>	Problem Solving	<div><div></div><div></div><div></div><div></div><div></div></div>
Rest API	<div><div></div><div></div><div></div><div></div><div></div></div>	Database	<div><div></div><div></div><div></div><div></div><div></div></div>
Redux	<div><div></div><div></div><div></div><div></div><div></div></div>		

## Projects

2024/07 – present	<div><b>Ahmasoft</b> </div> <div><a href="http://www.ahmasoft.com">www.ahmasoft.com</a></div> <ul style="list-style-type: none"><li>Developed a dynamic and user-friendly website for Ahmasoft, a startup offering professional services.</li><li>Utilized React.js to create responsive and interactive user interfaces, enhancing the user experience.</li><li>Implemented modern design principles and optimized website performance for seamless functionality.</li><li>Collaborated with stakeholders to ensure the website aligned with business goals and branding.</li></ul>
2024/03 – 2024/06	<div><b>Food Ordering App</b> </div> <div><a href="http://food-website-frontend-nine.vercel.app">food-website-frontend-nine.vercel.app</a></div> <ul style="list-style-type: none"><li>Users can browse and choose their favorite food items from a menu.</li><li>Selected items and their selected quantities are added to the cart in real-time.</li><li>The cart dynamically updates as users add or remove items.</li><li>The total bill is calculated and displayed in real-time based on the selected items and their quantities. Any changes in the cart (adding/removing items) reflect immediately in the total bill.</li><li>MongoDB database is used to save the data of user SignUp &amp; Login.</li><li>ExpressJS is used for backend in which API is made.</li></ul>
2024/01 – 2024/03	<div><b>Blogging App</b> </div> <div><a href="http://blog-app-for-client.vercel.app">blog-app-for-client.vercel.app</a></div> <ul style="list-style-type: none"><li>The website adapts to various screen sizes (desktops, tablets, smartphones).</li><li>Display a list of blogs fetched from an API made in ExpressJS.</li><li>Paginated display with 12 blogs per page.</li><li>A dedicated section showcasing the latest blogs.</li><li>Users can filter blogs by categories: Startups, Security, AI, Apps &amp; Tech.</li></ul>

## Education

---
